

OUR VISION:

St John residents living in healthy, safe and appropriate homes throughout our community.

OUR MISSION:

To facilitate construction solutions for the housing needs of St John residents, focusing the maximum impact to the underserved in our community. To accomplish this, we collaborate with established local consultants, architects, engineers, builders and volunteer agencies that demonstrate the ability and willingness to create affordable, safe housing solutions.

GOALS:

- Dedicated to coordinating the consultants and materials needed to **REBUILD** existing damaged residences in a safe, code compliant manner.
- To plan the implementation of the SENIOR ROOF INITIATIVE (SRI) which works to replace damaged roofs on qualifying Senior's Residences.

- To work towards **DEVELOPING** adequate, affordable housing solutions on St. John for its full-time residents and their long-term housing needs.
- To **BRING TOGETHER** the community with volunteer organizations and charity funds to expedite solutions to rebuilding residences.

DUTIES / DELIVERABLES INCLUDE:

- **IDENTIFY & ASSIGN** the clients construction needs with a DAMAGE ASSESSMENT/FIELD REPORT and designation of PRIORITY STATUS & CONSTRUCTION TRACK
- **PLAN** each case's TASK MANAGEMENT assignments for Permit and Construction Phases as needed.
- **IMPLEMENT** the TASK MANAGEMENT assignments including construction drawing development, permit applications and material lists for coordination with donated goods and services. Look to assign a contractor / build team to the case and report progress.
